SUMMARY

I'm a results-oriented Full-Stack Developer with professional experience in Node.js, React, and Python, backed by over 7 years of continuous coding across academic, self-taught, and professional projects. I am passionate about building scalable, user-centric applications, complex automations, and data-driven solutions. My hands-on experience and extreme adaptability enable me to contribute immediately and collaborate effectively to drive innovation for your company.

WORK EXPERIENCE

Independent Software Developer / Algorithmic Trading Self-Employed | 04/2023 - Present | Mar del Plata, Argentina

- Engineered and optimized high-frequency quantitative trading bots ("Striker" and "Vigilante") for the Polymarket platform utilizing Python.
- Implemented advanced Web Scraping techniques for real-time data extraction, processing, and statistical analysis.
- Integrated local AI models (such as Ollama and Gemma 4) to enhance decision-making logic and automate complex data workflows.

Full-Stack Developer Amtar | 12/2022 - 03/2023 | Mar del Plata, Argentina

- Led a development duo to deliver a comprehensive medical insurance application in just 3 months, significantly ahead of the 5-month projected timeline.
- Managed API architecture using Firebase, drastically reducing notification response times from up to 2 minutes down to just 2 seconds.
- Designed and developed both frontend and backend architectures, ensuring a highly intuitive UI/UX that minimized the learning curve for end-users.

Software Developer Innova Space | 07/2022 - 11/2022 | Mar del Plata, Argentina

- Collaborated in an agile team of 6 developers to build an application dedicated to processing and visualizing aerospace and satellite data.
- Designed and built a RESTful API from scratch using InfluxDB, creating a clean and accessible architecture for seamless team consumption.
- Led the frontend development using React Native, delivering robust graphical interfaces for the agriculture, oil, and mining sectors.
- Quickly adopted and integrated new technologies on the fly, ensuring maintainable, functional, and high-quality solutions.

INTERNATIONAL EXPERIENCE

Logistics Operator (Working Holiday Program) Gate Gourmet | 01/2025 - 11/2025 | Kawasaki, Japan

- Immersed in a high-pressure, multicultural work environment, collaborating daily with teams from Japan, the Philippines, Nepal, and Peru.
- Developed extreme adaptability and resilience, navigating strict production deadlines and overcoming language barriers.
- Earned recognition from leadership for rapid problem-solving, efficiency, and strong teamwork in critical operational lines.

SKILLS

- **Languages & Frameworks:** JavaScript, Node.js, React.js, React Native, Next.js, Python, HTML5, CSS3.
- **Databases & Tools:** Firebase, InfluxDB, Git/Version Control Systems (VCS), RESTful APIs.
- **Advanced Technologies:** Web Scraping, Algorithmic Trading Logic, Local LLM Integration (Ollama, Gemma), Data Structures & Algorithms, Object-Oriented Programming (OOP).

Systems Analyst (Analista de Sistemas) *ISFT 151* | 03/2024 – Present (**2nd Year**) | Mar del Plata, Argentina.

Software Developer (Técnico en Programación) *Escuela de Educación Secundaria Técnica N° 5 "Amancio Williams"* | 03/2014 – 11/2022 | Mar del Plata, Argentina.
